

## "Home Folks" Know Best

HERE'S A LETTER from "Home folks" telling of an experience with a Charter Oak Stove that had seen service for sixty-four years—and expressing their continued fidelity to this tried and true brand.

MAPLEWOOD, ST. LOUIS COUNTY, MO.,  
7316 Sarah Street.  
CHARTER OAK STOVE & RANGE CO.,  
St. Louis, Mo.

Gentlemen:—My parents bought a Charter Oak Stove in 1852. My mother used it constantly every day until 1909, when it passed into my wife's possession, and she used it without needing any repairs, up to February 25, 1916, sixty-four years' use. In 1916 it was destroyed by a dynamite explosion which wrecked our home. Of course we have remained loyal to the Charter Oak. Yours truly,  
Signed, CHAS. A. WILHARDT.

There are Charter Oaks in all parts of the United States still in use that have given 50 years or more satisfactory service.

3500 dealers in U. S.—135 dealers in St. Louis sell them.

If your dealer tries to talk you into buying another make, write to us.

## STATE ROAD COMMISSION IS ASKED TO BUILD OVERHEAD CROSSINGS AT DANGER POINTS

In an effort to eliminate danger at the Harrisville crossing and the Farmington crossing, resolutions asking that the state road commission build viaducts or overhead railroad crossings at these points were passed at a meeting of the Merchants of Ogden, last evening.

The resolution pointed out the fact that several accidents at each of these crossings have occurred during the past few years. A crossing at the

## MERCHANTS ARE TO PLACE OGDEN ON THE MAP AS A LANDING PLACE FOR AIRPLANES

To insure Ogden's future as a center for aerial traffic, including mail, passenger and express service, the Merchants of Ogden, at their meeting last night, appointed a committee which will devote its attention to the development of all aviation projects that can possibly influence Ogden in any way. President J. S. Lewis was chosen as chairman of the committee. He has taken a great interest in aviation and predicted last evening that within a few years, passenger, freight and mail service would be carried on throughout the United States. The fact that but one such aerial center will be in Utah was brought out and every effort will be made, as the development of aviation progresses, to have Ogden recognized.

Other members of the committee, which was chosen are John Culley, Albert D. Foulger, Elmer E. Piers, Roscoe C. Williams, Frank Francis and W. E. Zuppann. Piers and Williams are former service aviators.

Assurance was given the government of a landing field, of dimensions sufficient for house hangars. It is planned

## SERIES OF RAIDS IN GARY

Firearms, Red Flags and  
Revolutionary Literature Seized.

CHICAGO, Oct. 9.—Federal agents today made another series of raids on the homes of radical leaders at Gary, Ind., seized a quantity of firearms, red flags and revolutionary literature. It was announced that the drive against radical leaders who are said to be responsible for most of the rioting in this district would be continued until the last agitator who preaches sedition has either been arrested or driven out. Since the raids were begun, it is said, more than 20 radicals have hurriedly left Gary.

Officials of the steel mills reported that strikers were returning to work in increasing numbers and that production in the plants was slowly being restored to normal. Union labor leaders deny that the strikers are returning in large numbers and insist that the skilled workers are standing firm.

## BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.

Frederick S. Kotté, M. D., Editor of New York Physicians' "Who's Who," says this work, and that products want increased weight, strength and nerve-force, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal.

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well, or are too thin; or if you do not get enough food; or if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing—Advertisement.

Henry L. Dougherty, president of the Cities Service Federation, which operates street cars in many cities, refuses to raise the fares on "ONV" cars. "When husbands and doctors ride on street cars after midnight," he says, "there's a reason."

FOR MEN WHO WORK HARD  
Factory workers, railroad men, farmers, miners, mill employees and all men who work at hard, straining physical labor are more or less subject to kidney trouble. Nature gives warning signals by frequent lameness, stiff joints, sore muscles, backache and rheumatic pains. J. G. Wolf, Green Bay, Wis., writes: "Foley Kidney Pills relieved me of a severe backache that had bothered me for several months. A few bottles fixed me up in good shape." A. R. ## PRES. WILSON IS HOLDING UP WELL IS REPORT

WASHINGTON, Oct. 9.—President Wilson continues to hold the slight improvement in his condition noted yesterday, said a bulletin issued today by Rear Admirals Grayson and Stitt, his physicians.

The bulletin follows:  
White, House, October 9, 11:30 a. m.  
"While there is no material change in the president's condition, the slight improvement noted yesterday continues."

"GRAYSON, STITT."  
Cooler weather was credited today by President Wilson's physicians with aiding in his recovery, which now has reached the stage where he is able to spend part of his time sitting up.

The president still is prohibited from doing any work although his physicians said he was well enough to resume the duties of his office should any emergency arise.

## GLYCERINE MIXTURE SURPRISES OGDEN

The quick action of simple glycerine, buckthorn bark, etc., as mixed in Adler-ika, is surprising. One spoonful relieves any case of gas on stomach or sour stomach. Adler-ika acts on BOTH upper and lower bowel and removes all four accumulated matters which poisoned stomach. Often CURES constipation. Prevents appendicitis. One lady reports she has no more pain in back of head or gas on stomach since using Adler-ika. A. R. McIntyre Drug Co.—Advertisement.

## BRITISH MINERS CALL ON PREMIER

Urge Complete Nationalization of Mines; Lloyd George Against Their Proposal.

LONDON, Oct. 9.—A deputation of British miners will call on Premier Lloyd George to urge complete nationalization of mines. The deputation consists of members of the parliamentary committee of the trades union congress, which met recently in Glasgow, and members of the executive committee of the miners' federation. J. H. Thomas, secretary of the National Union of Railway Men, and leader of the recent strike, will head the deputation as the new chairman of the parliamentary committee.

This step will be taken in accordance with a resolution adopted at the recent trades union congress at Glasgow, which pledged the congress to co-operate with the miners' federation in compelling the government to accept the majority report submitted by the coal commission headed by Sir John Sankey. Premier Lloyd George, before parliament adjourned, announced the government's decision not to accept the majority report, which recommended shorter hours,

higher wages and a reform in the ownership system and suggested nationalization, but said the government would merely nationalize minerals, with a sort of joint control of the industry.

Mr. Lloyd George reiterates this decision today and refuses to accept nationalization, as it is assumed he will, a special trades union congress will be convened to decide upon the form of action to be taken by the miners to compel acquiescence in their demands.

## Motion Picture Houses Forbidden to Use Old Films

WASHINGTON, Oct. 9.—Extending its order forbidding the re-production of old films by motion picture houses under new names, the federal trade commission today ordered that where parts of old films were shown in new exhibitions, they must be so marked and advertised. The case of one recently shown picture is cited where, out of 5000 feet of film, 2500 feet had been used in another picture shown a few years before. The order directs that the old parts of the film be "clearly, distinctly, definitely and unmistakably" marked to have been previously exhibited.

## SUPERFLUOUS HAIR WHY IT INCREASES

Hair growth is stimulated and the frequent removal is necessary when the hair is removed from the surface of the skin. The only logical and practical way to remove hair is to attack it under the skin. DeMicare, the original sanitary liquid, does this by absorption.

Only genuine DeMicare has a money-back guarantee in each package. At toilet counters in 50c, 61 and 83 sizes, or by mail from us in plain wrapper on receipt of price. FREE book mailed in plain sealed envelope on request. DeMicare, 129th St. and Park Ave., New York.
